Providing Technology Based Vocational, Placement and Consulting Services Since 1985

The Job Market is ever changing. Current unemployment has reached unprecedented highs nationally. Cost factors are being scrutinized more closely than ever by all businesses.

Communication and delivery of services can now be done instantly and nationally. In order to address these changes, A & H is introducing its new technology based e-learning program. This program is being developed by instructional designers and web professionals. The self paced program is completed online by job seekers with the support of A & H Consultants. The support is done by phone, Internet and SKYPE. These methods allow quick response and conferencing set ups that eliminate costly travel time and expense.

In addition to our newly expanded website, A & H will be unveiling the new program at the Fall, 2011 MARP conference in Minneapolis. The completed program will go online the first quarter of 2012.

If you would like to preview this exciting product please contact us to view the program as well as our full line of services offered nationally.

We look forward to a continued relationship with all of our current customers and new accounts in the coming years.

Thank you! *Andrew*

A & H Vocational E-Guidance Program reaches a wide range of job seekers.

Becoming an informed and prepared job seeker takes training and skills. The new e-program from A & H offers all types of job seekers the opportunity for on-line training and preparation.

Whether you are a professional dealing in workers compensation, personal injury, auto no-fault, displaced workers or have a need for vocational services we can provide services to your clients nationally.

By using SKYPE and Internet technology A & H can work with job seekers across the USA including, Florida, Utah, California, Minnesota, Wisconsin, North Dakota, South Dakota, Iowa and Illinois.

The instructionally sound program is self paced and can be done 24/7 by job seekers. This flexibility allows job seekers to work, provide family care and still have time to complete all of the lessons and necessary work.

The use of technology also helps some job seekers become more comfortable using the computer. With the demand for technology driven jobs increasing constantly computers is now required in almost every field. We help job seekers be ready to start their job search with the right tools.

Meet Our Staff!

Andrew Q. Haak

President

In 1985 Andy registered A & H as a Workers Compensation Vendor. Surviving in a period of changing laws and labor markets has been challenging and exciting.

Andy is primarily involved in managing the daily activities of running the business. He also lends his expertise in the development of new products and services.
